BIOGRAPHICAL SKETCH

Paul F. Marty, Ph.D., is Professor in the School of Information in the College of Communication and Information at Florida State University. His research and teaching interests include museum informatics; technology, innovation, and culture; experience design; and the information society.

Dr. Marty specializes in the study of people, information, and technology in museums, and his publications explore the invisible work of museum computing, the evolving roles of technology professionals in museums, and the use of digital museum resources by museum visitors. He has served on the editorial boards and committees of national and international organizations including Museum Management and Curatorship, Museums and the Web, and the Museum Computer Network. He is currently working on an oral history of museum computing.

Dr. Marty has a background in ancient history and computer science engineering, and his Ph.D. is from the School of Information Sciences at the University of Illinois at Urbana-Champaign. At Florida State University, he currently serves as chair of the Honors Program Policy Committee, chair of the Innovation Hub Steering Committee, co-chair of the Undergraduate Program in Information Technology, and chair of the Milton S. Carothers Faculty Lecture Series.

EDUCATION

- 2002 Ph.D. Graduate School of Library and Information Science, University of Illinois at Urbana-Champaign. Dissertation Title: *Museum Informatics and the Evolution of an Information Infrastructure in a University Museum*. Dissertation Committee: Michael B. Twidale (Chair), W. Boyd Rayward, Caroline Haythornthwaite, and Les Gasser.
- 1996 Doctoral Candidate, Classics and Ancient History, King's College, Cambridge University.
- 1995 M.A. History, College of Liberal Arts and Sciences, University of Illinois at Urbana-Champaign.
- 1994 B.A. History, College of Liberal Arts and Sciences, University of Illinois at Urbana-Champaign. Thesis Title: *The Seeds of their own Destruction: Imperial Expansion, Moral Decline, and the Fall of the Roman Republic*. Thesis Supervisor: Richard E. Mitchell.
- 1994 B.S. Computer Science Engineering, College of Engineering, University of Illinois at Urbana-Champaign. Graduated Cum Laude with Highest Distinction and High Honors.

ACADEMIC, TEACHING, AND PROFESSIONAL EXPERIENCE

Academic Experience

Florida State University (2002 to present)

Professor, School of Information, August 2014 to present.

Associate Dean, College of Communication and Information, August 2018 to 2021.

Associate Professor, School of Information, August 2008 to 2014.

Assistant Professor, School of Information, August 2002 to 2008.

Teaching Experience

Florida State University (2002 to present)

Professor, *Museum Informatics (LIS 5590)*

Provides an introduction to Museum Informatics, the study of how technical innovations influence the social world of museums, by exploring the nature of information technology in museums and the way modern information systems have shaped the museum environment.

Professor, *Usability Analysis (LIS 5275)*

Provides a comprehensive overview of usability analysis and its role in user-centered design. The course materials are intended to familiarize students with the concepts and procedures necessary to incorporate usability analysis into the information systems design process.

Professor, *User Experience Design (LIS 4351)*

Provides a comprehensive overview of the user experience design process, and familiarizes students with the methods, concepts, and techniques necessary to make user experience design an integral part of developing information interfaces.

Professor, *Is Google Making Us Stupid? The Unintended Consequences of IT (IDS 2683)*

Explores the pros and cons of information technology in our everyday lives, the unintended and unanticipated consequences of implementing new information technologies, and how we can identify and mitigate against risk factors that lead to information technology disasters.

Professor, *Innovation and Emerging Technologies (IDS 2141)*

Explores how new information technologies are changing the way we interact with the world around us. Students work to master a wide variety of technologies, and then use them to create a dynamic project showcasing the latest trends in innovation, creativity, and entrepreneurship.

Professor, *Assessing Information Needs (LIS 5203)*

Provides students with an overview of the user's perspective in the analysis of information needs and preferences. Provides the fundamentals to a broad approach emphasizing a unifying structure to understand human information seeking behaviors.

University of Illinois at Urbana-Champaign (1991 to 2001)

Instructor, *Museum Informatics*, University of Illinois, Fall 2001.

Developed and taught a new course (LIS 350 MUI) on the impact of information technologies on museums from the perspective of both museum professionals and museum visitors.

Teaching Assistant, *Interfaces to Information Systems*, University of Illinois, Spring 2001.

Assisted instructor in LIS 450 IIL, *Interfaces to Information Systems*, a course in the LEEP program for students pursuing a Masters Degree from the Graduate School of Library and Information Science (online distance education option).

Teaching Assistant, *Design of Usable Information Interfaces*, University of Illinois, Fall 2000.

Assisted instructor in LIS 220, *Design of Usable Information Interfaces*, a course in the undergraduate program for students pursuing a minor in Information Technology Studies from the Graduate School of Library and Information Science. Presented guest lecture on interfaces to virtual museum environments.

Lecturer, *Representing and Organizing Information*, University of Illinois, Spring 2000.

Assisted in the design and development of LIS 450 RO, *Representing and Organizing Information*, a masters level course in the Graduate School of Library and Information Science. Guest lectured and led discussions about the development of an online virtual community museum.

Teaching Assistant, *Information Organization and Access*, University of Illinois, Fall 1999.

Discussion section leader for 25 students in LIS 380, *Information Organization and Access*, an introductory course for masters students pursuing an MLS at the Graduate School of Library and Information Science. Included on the Incomplete List of Teachers Ranked as Excellent by their Students.

Instructor, *Academic Summer Camp*, University of Illinois, Summer 1991.

Teaching ancient Mesopotamian history, conflict resolution in World War I, and medieval state building in feudal France to middle school students.

Parkland Community College, Champaign IL (1989 to 1996)

Instructor, *College for Kids*, Parkland Community College.

Teacher in summer school programs for students in grades four through eight. Courses taught included: ancient history, mythology, science, and conflict resolution.

Professional Experience

Adjunct Assistant Curator, Spurlock Museum, University of Illinois, 2002 to 2018.

Courtesy appointment to provide ongoing consultation in information systems management, curatorship, and web design for the Spurlock Museum.

Director of Information Technology, Spurlock Museum, University of Illinois, 1996 to 2002.

Responsible for implementing a comprehensive reorganization of the Spurlock's use of advanced information technologies as part of a five-year program designed to prepare the museum, its staff, and its collections for a complete move across campus to a brand-new facility. Wrote and managed competitive grants to accomplish these tasks.

Designed and developed integrated information systems for the museum including an artifact collections management system containing detailed specifications on the museum's 45,000 artifacts such as nomenclature classifications, physical dimensions, material analyses, geographical, cultural, and temporal designations, accession records, artifact histories, exhibit information, scholarly remarks, condition and conservation records, and research notes; museum administration support systems to support, manage, and maintain crucial museum policies such as collections management, registration, conservation procedures, packing and shipping, curation, exhibit design, and educational outreach; digital image repositories containing digital representations (including some 3D images) of the museum's collections; museum websites to allow exhibit designers to collaborate with curators on gallery creation, scholars to browse detailed records on the museum's artifact holdings, the general public to learn more about the museum and its collections, and teachers to base lesson plans around digital artifact representations; and online educational outreach projects designed to bring the museum's digital resources into the K12 educational community.

Served as exhibit design coordinator responsible for facilitating communication between museum staff members, curators, exhibit designers, and fabricators to ensure the timely completion and installation of galleries in the new museum; curator responsible for developing an entirely new program for the Spurlock Museum, from the creation of basic thematic concepts to the situation of artifacts within galleries including the gallery of Ancient Mediterranean cultures as well as the central core gallery covering topical themes common to all cultures; and editor of the Spurlock Museum Newsletter (1997-2000). Also served on the Spurlock Museum Planning Committee, Spurlock Exhibit Design Committee, Spurlock Scholars Advisory Board, Spurlock Steering Committee, Spurlock Advisory Committee, Spurlock Promotional Committee, and Spurlock Personnel Committee.

Research Assistant, U.S. Army Construction Engineering Research Laboratories, Champaign, IL, 1990 to 1995.

Responsibilities included design and development of Claims Guidance System, an expert system for providing pre-legal advice about contractor claims upon the government; programmer for Modification Processor, Resident Management System, Construction Expedient Claims System, and other projects designed to ease the duties of resident and area engineers; Banyan Vines network administrator; development of lab-wide software using Lotus Notes to create a computerized automated office management system covering topics ranging from weekly activities and biweekly paychecks to purchase orders and customer information databases; design and development of Intelligent Agent software for workgroups; research and evaluation of the leading industry computer-assisted tools for implementing business process reengineering; and implementation of group decision-making support software to facilitate lab-wide meetings at USACERL. Represented USACERL at GroupWare Conference (1993) in San Jose, California. Nominated for Research Assistant of the Year Award (1992).
